

June 27 is National HIV Testing Day

Nearly 1.1 million people are living with HIV in the U.S., and one in six don't know they are infected.

Consider These Facts:

- -HIV testing is a critical first step in taking control and responsibility over one's health.
- -Under the theme "Take the Test, Take Control" National testing day focuses on the importance of HIV testing and HIV prevention.
- -Nearly 1.1 million people are living with HIV in the U.S., and one in six don't know they are infected.

HIV testing is a critical first step in taking control and responsibility over one's health

If you do not know your HIV status, it is time for you to Take Control of your Health and Take the Test.
