

Love is more than chocolates and flowers

Love. Caring. Affection. These are the cornerstones of relationships and what we celebrate on Valentine's Day. In the U.S. we give dinners out, cards, chocolate and flowers to show those we love how much we care. Thousands of HIV impacted children never feel love, caring or affection, much less on Valentine's Day.

Your gift to CAFI this Valentine's Day will provide nutritious food, school fees, clothing or other essentials of life and will let HIV impacted children know that someone actually does remember them and care.

Your gift this Valentine's Day will let HIV impacted children know that someone actually does remember them and care.

\$75 provides counseling and clinical intervention to prevent HIV transmission from pregnant mother to child. \$60 buys eight hours of life skills, HIV, STI and universal values education to help keep youth HIV free. \$50 will purchase two chickens. Poultry can supply fresh eggs that provide essential nutrition for a family's health, as well as income from extra eggs to purchase essentials like shoes and clothes.

Any amount you give this Valentine's Day will be used by CAFI to provide love, caring and affection to these precious and too often-forgotten HIV impacted children.

Thank you so much for your part in this life-saving work!
